SUMMARY

A passionate web developer skilled in HTML, CSS, Bootstrap, Tailwind CSS, DaisyUI, MySQL, JavaScript and library like Reactjs. Committed to staying updated on industry trends, delivering timely projects with meticulous attention to detail. Currently I am learning MERN Stack. Strong problem-solving and analytical skills. Eager to contribute innovative ideas to a dynamic team, displaying excellence in development and collaboration.

WORK EXPERIENCE

Frontend Developer | Appium Logics Solution | Remote | April 2024 – July 2024

- Part of a dynamic team, actively engaged in real-world projects to refine front-end development skills.
- Designed captivating user interfaces and optimized web performance for seamless user experiences.
- Collaborated with seasoned professionals, gaining valuable insights into cutting-edge technologies.
- Specialized in HTML, CSS, JavaScript, React.js, and more, ensuring fast and responsive applications.
- Went beyond coding by understanding client needs and implementing aesthetically pleasing designs.
- Stayed updated with industry trends, bringing innovative ideas to every project.
- Delivered high-quality solutions that met client expectations and contributed to business success.

Frontend Developer Intern | Bytewise Limited | Remote | May 2023 - August 2023

- Encouraged teamwork and open communication, fostering a collaborative environment.
- Played a key role in enhancing team productivity and creating user-friendly web applications.
- Worked on diverse projects, gaining experience in developing intuitive, responsive interfaces.
- Focused on sharing knowledge and experiences, contributing to the professional growth of the team.
- Delivering 100% output on tight deadlines.

PROJECTS

BookStore | [LINK](#)

- As I am learning of MERN stack I made a website with credentials-based authentication system, implemented using a MERN stack.
- Facilitating users' logins to websites without having to remember their credentials
- Used context API's to protect the routes or theme toggle functionality.
- Technology Used: Mongoose, Reactjs, Tailwind CSS, Daisy UI, Express.js, Postman, Node.js,

Ecommerce UI | [LINK](#)

- A React-based web application, which allows users to buy products.
- The site features a user-friendly interface, secure payment options, and responsive design, ensuring a seamless shopping experience across devices.
- Technology Used: Reactjs, Firebase, Bootstrap.
- Utilized React libraries for UI and UX development.

Appium Logics Solution (Company Website) | [LINK](#)

- I developed and designed the official website for Appium Logic Solutions, focusing on creating a professional online presence that
- Displays the company's services and expertise.
- Technology Used: JavaScript, CSS, HTML
