SUMMARY

A passionate web developer skilled in HTML, CSS, Bootstrap, Tailwind CSS, DaisyUI, MySQL, JavaScript and library like ReactJs. Committed to staying updated on industry trends, delivering timely projects with meticulous attention to detail. Currently I am learning MERN Stack. Strong problem-solving and analytical skills. Eager to contribute innovative ideas to a dynamic team, displaying excellence in development and collaboration.

WORK EXPERIENCE

ReactJs Developer | Appium Logics Solution | Remote | April 2024 – July 2024

- Contributed to a dynamic team, working on real-world projects to enhance front-end development expertise.
- Designed engaging user interfaces and optimized web performance to ensure seamless user experiences.
- Collaborated with experienced professionals, gaining insights into modern technologies and best practices.
- Specialized in HTML, CSS, JavaScript, and React.js, building fast and responsive web applications.
- Prioritized client needs, translating requirements into aesthetically pleasing and functional designs.
- Stayed updated on industry trends, integrating innovative solutions into projects.
- Consistently delivered high-quality, client-focused solutions that drove business success.

Frontend Developer Intern | Bytewise Limited | Remote | May 2023 - August 2023

- Fostered a collaborative work environment by encouraging teamwork and open communication.
- Played a key role in improving team productivity while developing user-friendly and responsive web applications.
- Gained hands-on experience by working on diverse projects, creating intuitive interfaces tailored to user needs.
- Shared knowledge and expertise to support the professional growth and skill development of the team.
- Consistently delivered high-quality results, meeting 100% of project deadlines, even under tight time constraints.

PROJECTS

SmartCricket Website (Final Year Project)

- Designed a user-friendly interface in Figma and built it using React.js, Tailwind CSS, Framer Motion, and DaisyUI.
- Added features like match analysis, player performance comparisons, and team rankings to make the app more engaging.
- Created a responsive design that works smoothly on all devices.
- Used MySQL for user authentication and managing the database.
- Built the project using React.js, Flask, MySQL, DaisyUI, Framer Motion and Tailwind CSS for a reliable and efficient application.

Ecommerce UI | [LINK](#)

- Developed a React-based web application that enables users to browse and purchase products effortlessly.
- Designed a user-friendly interface with secure payment options and a responsive design for a seamless shopping experience across all devices.
- Leveraged React.js libraries to enhance UI/UX development and ensure a visually appealing and intuitive interface.
- Integrated Firebase for user authentication and real-time database management.
- Utilized Bootstrap to create a clean, responsive layout with a focus on usability and accessibility.

Appium Logics Solution (Company Website) | [LINK](#)

- Designed and developed the official website for Appium Logic Solutions, creating a professional and user-centric online presence.
- Effectively displayed the company's services, expertise, and core offerings through intuitive design and clear content structure.
- Utilized HTML, CSS, and JavaScript to create a responsive, visually appealing, and user-friendly website.
- Ensured optimal performance, accessibility, and cross-browser compatibility to enhance user experience.
- Collaborated closely with stakeholders to align the website design with the company's branding and business objectives.
